C Programming Practice Questions

1. Write a program to print 'Hello, World!'.

2. Write a program to calculate the sum of two numbers entered by the user.

3. Write a program to check if a given number is even or odd.

4. Write a program to find the largest among three numbers.

5. Write a program to print the Fibonacci series up to n terms.

6. Write a program to find the factorial of a given number using recursion.

7. Write a program to reverse a string entered by the user.

8. Write a program to find the sum and average of an array of numbers.

9. Write a program to count the number of vowels in a given string.

10. Write a program to swap two numbers using pointers.

11. Write a program to implement a simple calculator using switch case.

12. Write a program to read and write data to a file.

13. Write a program to find the length of a string without using built-in functions.

14. Write a program to check if a given string is a palindrome.

15. Write a program to demonstrate the use of structures in C.

16. Write a program to find the GCD and LCM of two numbers.

17. Write a program to implement bubble sort.

18. Write a program to find the transpose of a matrix.

19. Write a program to convert binary to decimal and vice versa.

20. Write a program to find the sum of the digits of a number.
